Mr. J. Santan highlighted that it is not his own decision it is the decision of BMC. Mr. Oswald Fernandez added what is traditional why? Mr. Chale added: There are no traditional people & the cost is much higher. For the same, the electricity work needs to be maintained by new ways. Mr. Rupesh Shinde explained in detail why the wall collapsed. He was there he called up WRO they were on duty for inspection. The main bund is intact which is on other side. This wall was designed for water to see through & the area, Chale why it broke. The Chale replied due to breakage of pipeline (water). Mr. Rupesh Shinde added the facts of the situation needs to be considered, underground cabling was also done on road & water pipeline was damaged. The original water bund has not collapsed. This is the retention wall, & it was just a request letter to do it in a traditional way as bund is intact. Mr. Chale do not twist & turn. The letter. Mr. Oswald Fernandez added the bund needs to be well designed, if it might get collapsed again. There must be concrete wall to be constructed. Mr. Chale replied the same will be verified with department.
